Foreword

It is January 1961 and time to write my Iris Catalog. We have two feet of snow here in Barre, while at Westport, Mass., where my Iris Garden is located, there was no snow a few days ago when I drove down to look it over. The covering of old hay was on the Iris and had not blown off much. The Iris looked all right so far. Most winter injury comes in March when there is freezing and thawing and heaving-out unless the Iris is well covered.

Last summer and fall I had 28 or more new reblooming Iris seedlings bloom or send up stalks for the first time. I selected five to name, two from these 28 and three from seedlings which had rebloomed in former years. Summer Date was the most outstanding but there isn't enough to introduce it. Summer Whitewings is a pure, super white and will sell a few. Summer Sprite, Summer Blue and Fall Bluebird are the other new introductions and have more of them to sell. I have reduced the list price on most previous introductions so hope for your orders and will include generous extras with your order.

1961 Introductions

- 1. Summer Whitewings—\$15.00 —** (Autumn Twilight x Fall Primrose) (Fair Day) — standards—Purest White closed—Falls—Purest White, slight flare, no veins. Orange Beard—slight fragrance. Stalk 30 inches — 3 branches --- 7 buds. Flowers opened first on one stalk August 20th last summer. There were two stalks in September and October. A fourth stalk started October 15th was bloomed in the house in November. Just a few for sale.
- 2. Summer Sprite** (Tinted Porcelain x Fall Primrose)—**\$10.00** — S-closed, F-slight flare, light blue self almost white. Yellow beard—Stalk 28 inches—3 branches an intermediate rebloomer. Rebloomed in August.
- 3. Summer Blue—\$10.00 —** (Harvest Blue x Autumn Twilight)—S-closed, light blue—Falls slight flare, a shade deeper blue. Few brown veins base of falls. Reblooms in August. Stalk 30 inches, 3 branches.
- 4. Fall Bluebird—\$10.00 —** (Fall Fairy x Menominee)—S-light blue closed, F a shade deeper color, slight flare—waved. Reblooms in September. Stalk 27 inches—3 branches—an intermediate rebloomer.

1960 Introductions
